

Meetings and SymposiaNovember 1, 1981 - Eighth Symposium on Geochemical Cycles - Cincinnati, Ohio

Work Group on

Geochemical Cycles

Eighth Symposium on Geochemical Cycles, Cincinnati, 1 November 1981Technical Sessions: Netherland Hilton Hotel, Parlors E & F

- 0900 - Rate law for decay of sedimentary mass. J.C.G. Walker, University of Michigan
- 1000 - Coffee
- 1030 - Burial of organic carbon and pyrite sulfur in the modern ocean: its geochemical and environmental significance. R.A. Berner, Yale University
- 1130 - Modeling past and future relationships between atmospheric carbon dioxide and the marine carbon cycle. Eric Sundquist, United States Geological Survey
- 1230 - Luncheon
- 1430 - Secular variations of marine geochemistry recorded in fossil apatite. J. Kovach, Muskingham College, and Judith Wright-Clark and W.T. Holser, University of Oregon
- 1530 - Marine geochemical cycle of strontium. M. Wadleigh and J. Veizer, University of Ottawa, and Ch. Brooks, University of Montreal
- 1630 - Biological interpretation of some geochemical events. C.C. Delwiche, University of California at Davis

Speakers' Reception: Netherland Hilton Hotel, Parlor G

1800 - Refreshments

Acknowledgements

The Organizing Committee acknowledges with thanks the support of the National Science Foundation and of Pennzoil International Company, as well as contributions from Cities Service Company and Exxon Production Research Company, Getty Oil Co.

March 29 - April 1, 1982 - Joint Meeting of the Geochemical Society and the Mineralogical Society of Great Britain - Glasgow, Scotland. High-grade metamorphism, migmatites and melting. Details from Prof. B. E. Leake, Dept. of Geology, The University, Glasgow G12 8QQ, U. K.

June 26 - July 2, 1982. Fifth International Conference on Geochronology, Cosmochronology and Isotope Geology - Japan. Details from Dr. Ken Shibata, Geological Survey of Japan, Higashi 1-1-3, Yatabi Ibaraki 305, Japan.

August 22 - 28, 1982. Third Circumpacific Energy and Mineral Resources Conference - Honolulu, Hawaii. Details from Dr. J. Eric Mack, Jr., Union Geothermal Division, Union Oil Company of California, 461 South Boylston St., Los Angeles, California 90017.

Printed and distributed for the Geochemical Society by the Department of Geological Sciences, Wright State University.
